

PVC Strip Curtain

Transparent for safety vision
Unrestricted daylight
Reduced noise levels & temperature loss
Insulating PVC safe strips for cold storage areas
Washable & hygienic for food applications
Special grades of safe strip are used in welding the curtain.
These grades are generally coloured green with 99% reduction of harmful UV light.

Also available is new clear buffer safe strip which will resist the continual passage of vehicular traffic where standard material has limited life.

Specification:
High quality PVC safe strip
