

Steel Security Cages

Security cages are TaylorMade to suit any type of areas where limited access is required, whether it is internal or external.

The security cages are a simple way of protecting and securing any hazardous areas whether it is fixed permanently removable or hinged into place outer frame work or secure fixing to concrete brick or block wall.

British made from: 40mm x 40mm or 25mm x 25mm box section fully welded for maximum strength.

Also available are steel round bars 15mm or 20mm for extra strength.

Removable cages have side locking points to secure into position.

Or permanent fixture raw bolted into fixed position.

All security cages can be colour coded to suit your buildings colour scheme or requirements. Colour coating: galvanised, powder coated, or sprayed finish to withstand and help protect against corrosion when placed in the out elements.
